Presentations

The Mayor introduced Alex Prunchak, candidate for Eagle Scout, and explained that Alex is going to be doing an Eagle Scout Project and is here to present his project to Council. Alex reviewed his project of replicating a section of the Camden and Amboy Railroad (C&A). This project will take place in the side yard of the Ely House at Bank and Main Streets and he will utilize the sleeper stones from the original railroad; the original rails are not available because they were melted down during the war when metal was needed. The Historical Society has already given approval for the project and he is expecting approval from his Troop next week. The Department of Public Works has agreed to assist in moving the sleeper stones to the required placement for the project and landscaping of the area will be done as part of the project. The Mayor thanked Mr. Prunchak for his project and the review.

The Mayor then introduced Joan McGee of the NJDEP who proceeded to inform the Council that the Watershed picture contest winner was Vera Crabtree from Hightstown Borough and that her picture will now appear on t-shirts. She then reviewed the water quality test results for Hightstown Borough. She assured the public that there were no concerns regarding the water quality in Hightstown and stated that she also issued a reply to the Windsor Hights Herald after their article shed a false light on the issue of water contamination. Ms. McGee stated that all water quality standards have been met in Hightstown Borough and that the water is tested annually.

Barbara Jones, Chairperson of the Hightstown Borough Environmental Commission, stated that the Environmental Commission is very proactive in implementing a streamwater ordinance and is working with Peddie School to educate the public on the matter. She also remarked that the resolution on the agenda for this evening is for a \$7,000.00 forestry grant awarded the Environmental Commission to plant trees throughout the Borough. They were very pleased to receive the award and the planting of the trees also accounts for ten points toward their sustainability certification.

The Mayor then introduced Mr. Brian Valentino of Patriot Consulting Group who performed the Hightstown-East Windsor Police/Court Shared Services Study. The Mayor thanked Council members Sikorski, Bond and Quattrone for serving on this sub-committee and stated that the report on this study will be presented by Mr. Valentino and then everyone will have a chance to ask questions. He noted that this would be a Q & A session, not a public hearing for residents to voice their position on the study.

Mr. Valentino explained that funding for the Hightstown-East Windsor Police/Court Shared Services Feasibility Study was funded through the New Jersey Share Grant and the award of the contract was through an RFP process, he then presented the report (a copy thereof becoming a part of these minutes). Mr. Valentino assured the public that they were charged with evaluating the current circumstances and making a recommendation providing for the same or better police services than what is now enjoyed by Hightstown residents. After the presentation, the Mayor opened the question and answer period beginning with the Councilmembers. The Council inquired as to whether the State would assist with the required funds to implement the project and if the report contained the methodology and data used to come to the conclusion or recommendation, were included in the report. Mr. Valentino reported that the economic climate for the state has changed and does not believe assistance with funding the implementation of this project would be forthcoming within the next year, and it is estimated that a couple hundred thousand would be needed; however, this does not change the recommendation of implementation. He also stated that the report is a report of the findings through the study, however if Council would like the data and methodology it is available to them, but not to the public. Mr. Valentino stated that one of the biggest concerns was that the Police are driving the costs of the court and it would prove to be cost effective for Hightstown to get out of the court business.

The Mayor then opened the question and answer period to the public. *(All responses to these questions are in italics and were made by Mr. Valentino and his staff, unless otherwise noted)*

J P Gibbons – Was consideration given to the number of calls, how can they provide the same quality or better service with only seven officers being moved to East Windsor, when 90% of their time is currently spent on calls and was dispatch and communication costs considered during the study? *Yes, these items were taken in to consideration.*

Rob Thibault – When will the report be made available to the public? *The Clerk responded that it would be available on the web within 24 hours.* Is the cost to add officers to the East Windsor force all inclusive? *Yes, read the report in its entirety and take all things into consideration.* Did you perform any analysis on the types of calls that were responded to by Hightstown Police? *Defining the types of calls is very difficult, but there is no great disparity.*

Chris Mays – Was foot patrol considered? *Yes, that was a major concern of the sub-committee. If it is needed, Hightstown would stipulate it in the agreement.*

Scott Jenkins – What did you mean by part-time coverage of Hightstown? *Hightstown would receive full-time police coverage under our recommendation.*

Felicia Randolph – Drugs and guns are everywhere, how does that play in to your study? *We only looked at the two towns.* She is Hightstown born and raised and the police have always been there for her, she would not feel comfortable with the East Windsor Police.

Paul Byrne – This is all regarding a Quality of Life, does your study cover the Quality of Life? *How do you measure the Quality of Life, it is perception because you can say what is important to you. These are the types of concerns the Council will have to address by holding a public hearing on the study and get public input.* How many towns have actually merged services due to the results of these studies? *Very few, the State does not make it easy.*

Lynn Woods – Did you look at the change in response time? *Yes, and it would be the same response time, the officers from East Windsor are always in Hightstown, it may even be a shorter response time because there will be more officers available with the increase in the number of officers in East Windsor.*

Scott Caster – Was Hightstown Borough taking over the policing duties of East Windsor considered? *East Windsor was not interested in that concept, so it was not considered.* Although it is not called this, Hightstown provides a School Resource Office that is shared by both municipalities, was this considered? *We are aware of it and that Hightstown carries the entire burden of this now, it has been taken into consideration and is in the report.* Hightstown currently has an agreement with Cranbury for dispatch services, was this revenue taken into consideration? *Yes it was.*

Carla Chicklir – commented that she believes Hightstown’s property has been taken by others.

Gail Doran – Were regional services considered? *The only option was East Windsor taking over the services in Hightstown Borough.*

Dave Schneider – Considering the number of calls and the additional officers recommended, how are both towns going to get same or better service? *The report includes that 90% of the time spent by Hightstown Borough is on calls and although there is double the population in East Windsor, there is more crime in Hightstown. Crime is dictated by demographics and economic statistics.* How many officers will be assigned to Hightstown? *The two communities will have to negotiate that in their contract.* The court is a revenue generator, what happens to that profit? *The court revenue is driven by the police department.*

Kathy Patten – Will there be a referendum so the people can vote on this? *That is a local option, but is up to the community.*

Scott Jenkins – Was the study based on the officers and the supervisor? *The supervisor was not included; it is more fair to consider recognition of hours.* Hightstown is losing its identity.

J P Gibbons – Can you confirm that the parameters set on your research were that East Windsor absorbs Hightstown or no shared services? *Yes.* How did you come up with seven officers when East Windsor figures were not used? *We can get raw data on East Windsor, but it was not necessary for this study.* Was response time to non-violent crimes vs. violent crimes considered? *Yes, and it was found that there is more violent crime in Hightstown Borough.*

Eugene Sarafin – Congratulations to the sub-committee and Patriot for going through this process. You did a marvelous job.

Rob Thibault – Just for clarification, East Windsor would have to increase its population five times to meet Hightstown’s crime rate? *Yes, the figures are numbers per thousand.*

Council President Quattrone thanked Patriot Consulting, the meetings were very difficult and they answered every question and revised the report to be public friendly. Councilmember Theokas commented that this process will be like a meal, the report will be the appetizer and we will have to chew on it a while moving forward.

The Mayor thanked Patriot Consulting and called a ten-minute recess at 9:20pm for them to remove their video and computer equipment. Once the meeting re-convened, the Mayor opened Public Comment Period I

Public Comment I

Phyllis Deal - 305 Stockton St., would like someone to buy her house as it is for sale. Also, she asked where the rails went for the Eagle Scout project. The Mayor responded that they were salvaged by the railroad.

Rob Thibault – 504 S. Main St., commented on the articles in the paper regarding Officer Moore not being able to carry a weapon and that Hightstown has paid him \$275,000.00 during his suspension. How can he retire in good standing? The process is broken, what about the taxpayers? There has been a 176% increase in taxes in the last ten years. Council must take control, we should not be paying an officer to do nothing.

J P Gibbons – 602 Main St., There should be something in the contracts that says that if you can’t do the job, you forfeit your salary. Lawrence is taxing non-profits, Peddie School should be paying taxes on everything acquired since 2008 and Council should send a letter to the Governor to encourage change.

Eugene Serafin – 628 S. Main St., stated that the communities in New Jersey have a concept of fairness, but there is none. We need to fight a battle on why other towns get money it is not fair. The special interest always wins.

Torry Watkins – 68 Meadow Drive, commented that in the last two weeks the papers have said that Hightstown has two matters of police conduct in question, and they both have in common domestic violence. In the last several years there have been several police suspensions that concerned domestic violence and there appears to be a problem in police culture. Six cases in a fourteen member force is outrageous.

Dave Schneider – 227 Wilson, stated that Patriot referenced contract negotiations, but that information is not public. If we are reducing our police number by one-half, then the saving should be one-half. If East Windsor and Hightstown Borough could consolidate he would support it. He then encouraged the development of the Minute Maid property. He also noted that East Windsor has no incentive to take care of Hightstown and that future costs should be considered when discussing the police/court study.

There being no further comment the Mayor closed the Public Comment period.

Ordinance 2010-05 Public Hearing and Final Reading - An Ordinance Amending Chapter 13 “Housing” of the “Revised General Ordinances of the Borough of Hightstown, New Jersey”.

Councilmember McGinty gave a review of the ordinance. Councilmember Theokas encouraged Council to introduce this ordinance.

The Mayor opened the Public Hearing for Ordinance 2010-03. There being no comments, the Public Hearing was closed.

Councilmember McGinty moved Ordinance 2010-05 for adoption, Councilmember Musing seconded.

All other sign permit fees shall be in accordance with Section 12-2.5 and Section 29-22 of the Borough Code. Sign permits issued for portable signs, as defined in this Ordinance, shall be renewed yearly and may, after notice and hearing, be denied or revoked based on the permit holders' compliance with applicable Sign Ordinance requirements, or findings made pursuant to this Ordinance.

C. *Unsafe signs.* Whenever, in the opinion of the construction official, any sign becomes unsafe or endangers the safety of a building or premises or endangers the public safety, the construction official shall send a (certified mail, return receipt requested and regular mail) letter to the owner of the sign or the owner or tenant of the premises on which the sign is located, ordering that the sign be made safe or removed within five days of receipt of the letter.
