

Construction of upgrades and improvements to Hausser Avenue, Bennett Place, and Prospect Drive in Hightstown Borough for an awarded construction value of \$755,759.40 were financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (NJIB) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the NJIB to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits by reducing maintenance costs and increasing the efficiency of the distribution system for residents and businesses in Hightstown Borough.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
