PUBLIC NOTICE

**The Borough of Hightstown
County of Mercer**

HYDRANT FLUSHING SCHEDULE

The Borough of Hightstown Water Department will be conducting its spring hydrant flushing beginning April 13, 2026 through May 31, 2026.

Flushing will take place during regular daytime hours throughout the Borough. In addition, one or two evening flushing sessions may be scheduled, with specific dates to be determined and announced in advance.

During this period, residents may experience temporary discoloration of water and a slight decrease in water pressure. This is a normal part of the flushing process and does not pose a health risk. If discoloration occurs, residents are advised to run cold water until it clears and avoid doing laundry until the water is clear.

We appreciate your patience and cooperation as we perform this important maintenance to ensure the quality and reliability of our water system.

For questions or additional information, please contact the Hightstown Water Department at (609)490-5100 ext. 106 or by email at water@hightstownborough.com
